

**PROPERTY TAX APPEAL BOARD'S DECISION**

APPELLANT: John L. Snider  
DOCKET NO.: 03-29488.001-R-1  
PARCEL NO.: 14-32-226-043-0000  
TOWNSHIP: North Chicago

The parties of record before the Property Tax Appeal Board are John L. Snider, the appellant, by attorney Patrick J. Cullerton of Thompson Coburn Fagel Haber, and the Cook County Board of Review.

The subject property consists of a 92-year-old, three-story, multi-family dwelling of masonry construction containing 4,512 square feet of living area and located in North Chicago Township, Cook County. Features of the building include four full bathrooms, a full-unfinished basement and air-conditioning.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellant also submitted a two-page brief as well as photographs and Cook County Assessor's Internet Database sheets for the subject and the suggested comparables. Based on the appellant's documents, the four suggested comparables consist of three-story, multi-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 5,037 to 5,955 square feet of living area and range in age from 98 to 114 years. The comparables contain from four and one-half to six full bathrooms and a finished or unfinished basement. One comparable has air-conditioning and two fireplaces and two comparables contain a multi-car detached garage. The improvement assessments range from \$11.19 to \$13.25 per square foot of living area. Based on the evidence submitted, the appellant requested a total assessment of \$66,192, with an improvement assessment of

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 9,386  
IMPR.: \$ 70,249  
TOTAL: \$ 79,635

Subject only to the State multiplier as applicable.

\$56,806 or \$12.59 per square foot of living area and a land assessment to remain unchanged at \$9,386.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$79,635. The subject's improvement assessment is \$70,249 or \$15.57 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with three-story, multi-family buildings of masonry or frame and masonry construction located within the same survey block as the subject. Two comparables are located on the same street as the subject. The improvements range in size from 3,300 to 4,254 square feet of living area and range in age from 115 to 127 years. The comparables contain three full bathrooms. One comparable has a full-unfinished basement, one comparable has a fireplace and three comparables contain a two-car detached garage. The improvement assessments range from \$16.64 to \$19.22 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the appellant's comparables one, two and four and the board of review's comparables one, two and three to be the most similar properties to the subject in the record. These six properties are similar to the subject in improvement size, design, age, construction and location and have improvement assessments ranging from \$11.19 to \$17.82 per square foot of living area. The subject's per square foot improvement assessment of \$15.57 falls within the range established by these properties. The Board finds the remaining comparables less similar to the subject in improvement size. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
